IBRAHIM GABER

GOAL

My goal is to become a skilled full-stack web developer who is respected for my abilities and capable of spearheading extensive projects. I have acquired my knowledge through self-guided learning, primarily through online courses, with a strong emphasis on practical application and development of full-stack projects using the MERN stack.

WebWeave (Social Media Website)

- Designed, coded and deployed.
- Responsive user-friendly design using Material-UI.
- Real time notifications using Socket-io.
- Secure sessions using JWT.
- Scalable code structure.
- **Leveraged Knowledge** in Mongoose, Node, Express, React, HTML, JavaScript, CSS

EDUCTION

Faculty of Engineering – Ain Shams University   **2017 – 2022**

- B.Sc. in Mechanical Power Engineering, with GPA: 3
- **Graduation Project:** HVAC design for Abbasiya blood bank
